

Fact Sheet

St Dunstan's College is an independent, Anglican, English-medium co-educational school in Rynfield, Benoni, founded in 1918. From its humble beginnings St Dunstan's has grown into a leading independent institution that includes the original Preparatory School, a Pre-School and a College.

TO INSPIRE SO THAT ALL FLOURISH

ACADEMICS: PREPARATORY

A modern, relevant curriculum using CAPS as a base. A big emphasis is placed on an integrated, project-based learning programme. STEAM, Robotics and Coding have been built into the daily timetable. A new, integrated testing system is currently being implemented.

Junior Preparatory (Grade 1 – 3):

The balanced and broad curriculum comprises the following learning areas:

English (home language), Afrikaans (first additional language), isiZulu (first additional language), Mathematics, Computer and Technology Skills (Knowledge Network and Coding), Life Skills, Art, STEAM, Music and Physical Education

Senior Preparatory - Grade 4 - 6:

English, Mathematics, History, Life Orientation, Afrikaans, Natural Science, Geography, Art/STEAM

Grade 7:

English, Mathematics, EMS, Social Science (Geography & History), Afrikaans, Science, Biology, Art/STEAM, Life Orientation.

All the students from Grade 1 to 7 make use of the Knowledge Network Computer Studies Curriculum in the Computer Lab. These lessons provide students with important computer skills and knowledge that will benefit them in the technologically and digitally-driven future. Coding is done during computer and STEAM sessions.
